WARNINGS AND PRECAUTIONS

https://www.vimizim.com/wp-content/uploads/2018/02/Prescribing-Information.pdf

WARNING: RISK OF ANAPHYLAXI

Life-threatening anaphylactic reactions have occurred in some patients during VIMIZIM (elosulfase alfa) infusions.

Anaphylaxis, presenting as cough, erythema, throat tightness, urticaria, flushing, cyanosis, hypotension, rash, dyspnea, chest discomfort, and gastrointestinal symptoms (e.g., nausea, abdominal pain, retching, and vomiting) in conjunction with urticaria, have been reported to occur during VIMIZIM (elosulfase alfa) infusions, regardless of duration of the course of treatment.

Closely observe patients during and after VIMIZIM (elosulfase alfa) administration and be prepared to manage anaphylaxis. Inform patients of the signs and symptoms of anaphylaxis and have them seek immediate medical care should symptoms occur. Patients with acute respiratory illness may be at risk of serious acute exacerbation of their respiratory compromise due to hypersensitivity reactions, and require additional monitoring.
