___ Other

Therapy Administration and Dosing (supplied as 350mg/20mL vial)

All doses will be administered via appropriate final concentration of 4mg/mL to 10mg/mL

Dose #1 – 350mg IV – Administer in 0.9%NS IVPB over at least 30 minutes

Dose #2 – 750mg IV – Administer in 0.9%NS IVPB over at least 30 minutes

Dose #3 – 1050mg IV – Administer in 0.9%NS IVPB over at least 30 minutes

Doses #4-18 – 11400mg IV – Administer in 0.9%ND IVPB over at least 30 minutes

Please indicate here any preferred variation from standard orders including longer infusion times, less doses, etc.

• All patients will be kept for 30 minutes of monitoring following completion of infusion per the guidelines in the PI.

• Please note MRIs to assess for ARIA are required prior to doses 2, 3, 4 and 7 and must be sent to Thrivewell in order for patient to be cleared to proceed with treatment. Failure to provide the required MRI report at least 24hrs prior to the patient's scheduled appointment may result in delay in care for the patient.

Additional Orders: By signing this order, you agree to the following orders unless otherwise noted.

- Hold infusion and notify provider if patient reports: Headache, dizziness, nausea, vision changes, new or worsening confusion, balance concerns, or change in mentation.
- Infusion/allergic reactions may be managed by clinical staff per facility protocol. Provider office will be notified in real time of any infusion reactions.
